TO THE BOARD OF COMMISSIONERS OF THE

GIRARD TRUST GENTLEMEN: -On October 27, 1879, we wrote you he following letter, or words to this effect, to which we have had no reply :- "As tax-payers and for the ubile good and interest of the estate we are rompted to address you upon a subject that we oped could have been avoided; but a sense of duty nd honor compels us to make the following statenent :- On the 22d day of April, 1870, we were inited to estimate for erecting a furnace in dwelling To. 505 Coates street, belonging to the Girard estate. revious to our creeting the furnace Mr. J. H. fichener, of the Board of Trusts, called at our stablishment and made inspection of our goods, and ronounced them first-class, and said that he was avorably impressed with the workmanship of the ame. The contract was awarded to us from the act that our bid was the lowest and our work and naterials approved as first-class, and as good as any other parties' estimating; so stated by Mr. Cavin, agent of the estate.

"We completed the furnace, and it was pronounced first-class job in every respect. We would be leased for your body to visit the same for inspecon. On the 16th day of May, 1870, Mr. Cavin, gent of the estate, called upon us by authority of Mr. Michener, inviting us to make a bid and estinate for creeting a furnace in dwelling No. 1105 Firard street, owned by the estate, specifyng that the furnace was to be made of No. 14 from plates, and to be a first-class job in every particular, and assuring us that if our bid was lowest according o specification, the contract would be awarded us. Mr. Cavin laid that Mr. Michener auhorized him to so state. According to the specialeation and in good faith with Mr. Michener and Mr. Cavin, we estimated for the work. Our bid was the west, being so informed by Mr. Cavin, agent, but or some reasons unknown to us Mr. J. H. Michener awarded the contract to the highest bidder. We could state that we manufacture a furnace of areselv the same kind of metals and on the same principle as that of the party who received the contract, and for less money than they can be manufactured for in the United States. which we think a much inferior heater in emparison to our Russian Furnace. We so tated the fact to Mr. Michener and Mr. Cavin preious to our contracting. We would ask, in justice ourselves, and for the public good and interest to he Girard estate, and as an honorable business ransaction with Mr. Michener, why we should be so tealt with? We wrote to Mr. Michener in reference to the matter, but were treated with silence. Now, nasmuch as Mr. Michener was officiating as what may be termed a public officer, and for the public good, and as our bid was lowest, and having been nvited by him to estimate, and as our time was consumed in making investigations of flues, etc., of the house, we should have been treated with at least ommon politeness. We feel satisfied that Mr. Michener would not act as he did in his own interest, and as tax-payers we do not think he has right to violate the trust placed in him. We do not wish to comment further upon he matter, but will leave you these facts to judge for yourselves :- Since Mr. Michener specified No. 14 iron, accepted one bid from us, and approved our work, pronouncing it first-class, and assuring us hat if our bid was lowest that the contract would e awarded to us, was he not in honor bound to ward us the contract? We are cognizant of the faci that all contracts given are subject to the desion of the chairman, as he is the judge of the owest and best bidder. Through Mr. Cavin he has scknowledged that our bid was the lowest. - He also acknowledged that it was according to specification : and we can also prove by others that we are the best bidders, and that our work will compare, in excelence and quality, with any establishment in this country or Europe. If our work was first-class or No. 505 Coates street, and so prenounced by Mr. Michener, why cast our bid aside for No. 1106 Girard treet, and contract with other parties at a much dvanced price? We now have furnaces in use wenty years, and in perfect condition. We have een doing work for the estate for the last several ears, and Mr. Cavin, agent for the estate, can testify that our work has given general and entire satisfaction to all concerned. Our fruitless efforts to obtain any satisfaction from Mr. Michener prompted us to write to some of your comnittee, for which Mr. Michener took offense, and asserted that we should be cut out entirely from any further business with the estate; which threat he has fully enforced. We have not made this statement to solicit the work of the estate, as we feel satisfied that it would be useless so long as Mr. Michener is a member of the Trust; but we do so or the purpose of making known a serious evil existing in the Trust-that of allowing one member to control contracts and bids. We have been informed that the Board of Trusts knew nothing of this matter until one of the members was so informed by us. We would most respectfully nvite your committee to visit our works and inspect our goods, and also inspect work done by us for the estate years ago, and pass your judgment upon it accordingly. As good citizens, heavy tax-payers, and desiring the good of the public and interest of the estate, we have taken the liberty to occupy your time in this matter. We have understood that but two parties were invited to bid upon the contracts just awarded, to the amount of several thousand of dollars for the new row of houses on Sixth street, below Brown street, built by the Trust. Did Mr. Mitchener fear that had we been invited that we would have been the lowest and the best blidders, and no doubt saved the estate some several hundred dollars? Mr. Michener, through personal feelings, has accomplished that which we think is detrimental to the public good and interest of the estate. We would most respectfully ask that you now give us a

WHAT IS DYSPEPSIA?-THE QUESTION SETTLED .-Two young medical students were disputing the other day, at the house of a mutual friend, as to the nature of dyspepsia. One said the primary cause was a diseased liver; the other insisted that the disease originated in the epigastrium. "I can tell you what dyspepsia is, for I've been there," observed the host, laughingly. "Well," said one of the young medicos, "let's have your opinion." "Dyspepsia," said he, "is a complaint that you can't relieve, and that PLANTATION BITTERS cures in six weeks." The Judiciary Committee and the South. Special Despatch to The Evening Telegraph.

The Senate has adopted Anthony's resolution relative to the order of business, with an amendment that the Senate will consider whatever bill may be reported from the Judiciary Committee relating to the condition of the South. The adoption of Sher-man's resolution now, requiring the Judiciary Com-mittee to report a bill, will secure some kind of report from that committee. The Sau Demingo Commissioners. Special Despatch to The Evening Telegraph. Washington, March 22.-A despatch, just received by the President from the San Domingo

Commissioners, states that they have changed their determination to land at Key West, and that they will now proceed to Savannah, where they will take a special train for Washington. They expect to arrive here on Saturday evening. The House

adjourned at an early hour without doing any business. There is a settled determination on the part of the majority not to go into business. The next move it is proposed to make is to get the consent of the Senate to allow them to go home. Nominations.

The deci-sion was rendered in the case of Sargent's treadway and others, against the Western Pacific Railroad Company. The Attorney-General, in an elaborate opinion readirms the former decisions of the Secre-tary of the Interior, which the railroad attorneys insisted on having re-examined and reviewed, with the above adverse result to themselves.

The Commissioner has decided to adopt a new and safer lock, to the exclusion of all others, and has presented the American sealilock and seal because of its having been adopted by the Secretary of the Treasury for use in the customs service after being Treasury for use in the customs service after being submitted to the inspection of the supervising architect of the department and of a committee of five, embracing three skilled mechanics selected by the Secretary. Mr. Young said—I should not dignify this paragraph with any notice on this floor had not my attention been called to it by a distinguished Republican who is my friend. It is simply preposterous, absard, and ridiculous. I have never felt or given utterance to any sentiments that could warrant such a statement from the day of my admission to the Fortieth Congress, in 1898, to the present moment. I have met with nothing from members of this House but kindness and courtesy, and I have never for a moment entertained feelings for any member of the House other than those of kindness.

The Missing Boy Robert Smith Back to his Parents Again-A Sharp Search and Its Result. Detectives Carlin and Lukens, after a great

deal of trouble, have succeeded in bringing back to his parents the lost Robert Smith, who was taken away from his home, on Pearl street, on Saturday last. The detectives ascertained that the lad was not at Hazletville, as had been stated, but on a miserable peach farm eight miles from Dover.

They hired a horse and wagon and started from that place in search of the farm, and at half past one this morning they drove up to the place they were in search of, entered the house, and were fortunate enough to find the lad in bed. The proprietor of the farm was quite indignant, and fumed and stormed at a high rate, saying that he would not allow the lad to go unless he was refunded the amount expended in bringing

the boy from Philadelphia.

This request was of course refused, and the officers and lad drove back to Dover, and took the 6 o'clock train from that place. The boy was given in charge of his parents to-day at 12 It was no easy task hunting up the boy, and the detectives deserve great credit for it. NOTICE THE COPARTNERSHIP HERETO-
